

# QR Codes for Textile and Apparel Industry

Present all of the product details just with ONE QR Code scan

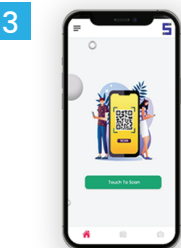

## HOW DOES IT WORK ?

1 Embedding all of the product info just in one QR Code without the use of pre-live URL

2 Scanning and getting all of the fed info instantaneously

3 Saving to STT customised smart wallet and speaking for specific product with the customers

## About STT

With STT dynamic QR Code generator, it is NOW possible to create dynamic QR Codes for your product, that include all web URLs, videos, files, photos, texts everything and anything you want in a single QR Code, WITHOUT the use of a pre-live URL, domain, or hosting. Additionally, using the same QR Code, your customers can send you a one-click message at any moment regarding the specific product they scanned. As a complement, the STT smart app for Android and IOs enables the digitalization of personal physical items the way you like.

LIMITLESS POSSIBILITIES TO EXPERIMENT WITH YOUR IDEAS
